Well Kept Paper

Quick-Start Guide

Life Admin Planner: get set up in about 30 minutes.

What is in your download

- WellKeptPaper_LifeAdminPlanner_A4.pdf: printable version (26 pages, A4).
- WellKeptPaper_LifeAdminPlanner_Digital.pdf: digital version with clickable tabs and contents, for tablets and PDF apps.
- This quick-start guide. (AI Prompt Pack: only if you bought the add-on.)

Printable: set up

- Print at 100% or "Fit to page" on A4. Single-sided works best for tables.
- Print extra copies of Monthly Bills and Weekly Check-in pages as needed.
- Keep pages in a ring binder or clipboard near where you open mail.

Digital: set up

- Open the Digital PDF in an app that supports links and handwriting, e.g. GoodNotes, Notability, Xodo or Adobe Acrobat.
- Tap the side tabs to jump between sections; tap "Back to contents" on any page.
- Duplicate pages in your app when you need more months or weeks.

Your first 30 minutes

- 10 min: list recurring bills on the Annual Bills Summary (use last month's bank statement).
- 10 min: fill in the Subscriptions List and Key Renewal Dates.
- 10 min: start the Document Index: where are passports, licences and policies kept?

Then, once a week

- Spend about ten minutes on the Weekly Admin Check-in: what's due, what's booked, what needs sorting.

Good practice

- Never write passwords or full card numbers in the planner. Note where they are stored instead.
- Store the digital PDF somewhere backed up.
