How to use these prompts

- Copy a prompt into the AI chat tool you already use (for example ChatGPT, Claude, Gemini or Copilot).
- Replace everything in [square brackets] with your own details.
- Read and check every answer before you use or send it. AI tools can make mistakes, including with numbers and dates.
- Don't paste passwords, full card numbers, bank logins or other sensitive identifiers. Remove or mask account numbers if you prefer.
- For anything official (government, tax, legal, insurance claims), check the official source or ask a qualified professional.

Organising aid only. These prompts help you draft, organise and summarise your own information. They are not financial, legal, tax, insurance or health advice, and AI output is not a substitute for professional advice.
